A True Partnership

PROUDLY CANADIAN

HYBRID SYSTEMS ROOF INSULATION

Ideal for Renovations & Decontamination:

Seals out Pests

A dense, rigid cell structure that naturally deters intrusion and nesting.

Vapour Barrier Solution:

Effectively blocks moisture, protecting interiors and improving air quality.

Optimized for retrofit projects, offering safe, efficient upgrades in critical environments.

For the roof insulation, achieve a combined value of : R-41 for a new construction and R-50 for renovation refer to the CNB

please ensure compliance with local authority regulations concerning the R-values & the vapour barrier of the assemblies

Integrated Vapor Barrier

Prevent moisture buildup and protect against mold and dampness.

Superior Thermal Insulation

Optimize indoor comfort and reduce energy costs all year round.

Enhanced Acoustic Insulation

Minimize unwanted noise for a quieter, more peaceful space.

+ please ensure compliance with local authority regulations concerning the R-values & the vapour barrier of the assemblies
