

GENYK 'Boreal Nature Elite' PRODUCT COMPARISON

June 16, 2020

On January 1, 2021, all spray foam materials must use the new generation HFO blowing agent. Genyk Polyurethanes is committed to being an environmentally responsible manufacturer. As such, Genyk has already made the move to an HFO product – 'Boreal Nature Elite'

Below is a product comparison table of HFO products available to the Canadian market –

PRODUCT	CCMC LISTING	THERMAL RESISTANCE (R-value/inch)	WATER VAPOUR PERMEANCE (ng/Pa*s*m ²)	AIR PERMEANCE L/s/m ²
BASF <i>CM01</i>	14100-L	5.3	56	0.0020
DEMILEC <i>Heatlok Soya HFO</i>	14078-L	5.4	51	0.0017
GENYK <i>Boreal Nature Elite</i>	14140-L	5.7	34	0.0008

As illustrated, *Boreal Nature Elite* leads the industry as a durable and performance driven product in each major physical property category.
